Uninterruptible energy supply with IQ technology and integrated energy storage for DIN rail mounting, input 24 V DC, output: 24 V DC/10 A, energy storage: lead AGM 3.4 Ah, incl. mounted UTA 107/30 universal DIN rail adapter

Product Description

UPS modules with integrated energy storage are particularly space saving: UPS module and energy storage are combined in one housing. It's just a case of connecting a power supply upstream.

Your advantages

- Easy handling thanks to automatic battery detection, tool-free battery replacement during operation, and communication via the IFS interface
- Reliable starting of difficult loads with the static POWER BOOST power reserve with up to 1.5 times the nominal current permanently
- Fast tripping of standard circuit breakers with SFB (selective fuse breaking) technology
- Device suitable for universal use thanks to comprehensive license package and extensive parameterization and diagnostics options
